INDEX OF SUBJECTS

Page numbers in italics indicate abstracts

- Acetazolamide**
augmenting renal effect of meralluride, 147
as diuretic in obstetrics, 152
- Acetylcholine**
and electrocardiogram in infants, 145
nicotine with, 789
stimulatory action on atria, 790
- Acidosis**
in extracorporeal circulation, 649
and hyperpotassemia, sodium bicarbonate infusion in, 215-219
in hyponatremia, 293-296
- Adams-Stokes syndrome**
corticotrophin in, 147
and partial A-V block, 950
- Adenosine diphosphate and triphosphate**, and cardiac contractile strength, 954
- Adenylic acid**, and cardiac contractile strength, 954
- Adrenalectomy**, renin content of kidneys after, 953
- Adrenaline**. *See* Epinephrine
- Adrenergic catechol amines in plasma**, in myocardial infarction and angina pectoris, 657-661
- Africans**, reversible heart failure in, 672-675
- Albumin**, serum, radioiodinated, in cardiac output studies after exercise, 590-594
- Alcoholism**, and beriberi heart disease, 275-283
- Aldosterone**, urinary, in hypertension, 305
- Allergy to digitalis**, 148
- Alopecia**, from dextran sulfate, 301
- Alseroxylon**, antiarrhythmic action of, 788
- Altitudes**, high, electrocardiography in, 719-726
- Alveolar tension**, carbon dioxide, effects on blood flow, 624
- American Heart Association**
Annual Report issued, 477
Arteriosclerosis Council, abstracts due for, 797
Arteriosclerosis Society joins AHA, 476
award recipients, 632-637
booklet on diagnosis, 159
cardiac papers published by Academy of Sciences, 631
cardiovascular training program, sponsors of, 798
Cerebrovascular Disease Conference transactions, 158
educational program on congestive heart failure, 956
epidemiological studies, 317
film on congenital heart defects, 630
flu vaccine for cardiae, 317
Heart Associations contribute funds, 476
Heart Bulletin, 477, 797
Hypertension proceedings published, 630, 797
information bureau for rheumatic disease staffs, 317
International Society of Cardiology Foundation, 631
investigatorship allocations, 629
Kimble Award received, 159
medical societies endorse Association program, 796
Medical Teaching Institute, 798
meetings calendars, 160, 318, 478, 631, 798, 957
Microcirculatory Conference, 630
new officers for Councils, 158
pathology slides available, 159
physicians in Heart Fund drive, 158
Pulmonary Circulation Symposium transactions, 477
Research Committee chairman, 797
interim chairman, 317
report, 314
research support applications, 955
Scientific Sessions
abstracts due, 476, 796, 956
attendance record, 317
College of Cardiology sessions with, 796
proceedings available, 477
program, 629, 796
registration for 1959 program, 956
subscription renewals, 159
Swedish pediatrician to address seminar, 957
Zilversmit appointed, 957
- Amines**, catechol, in plasma, in myocardial infarction and angina pectoris, 657-661
- Amyloid**, visceral, renal biopsy in, 617
- Anemia**
ballistocardiogram in, 41-46
electrocardiogram in, 142
hypervolemia with, hemodynamic effects of, 150
iron-deficiency, with hookworm, and reversible heart failure, 672-675
- Anesthesia**
cardiac output and peripheral resistance in, 311
cyclopropane, hypercarbia producing arrhythmia in, 624
- Aneurysm**
aortic
with medial necrosis and aortic stenosis, 793
thoracic aorta, 309
of aortic sinuses
congenital, 136
ruptured, and bacterial endocarditis, 745-749
coronary, 780
congenital, 221-227
mitral valve, and bacterial endocarditis, 758
pulmonary artery, radiologic diagnosis of, 308
- Angina pectoris**
anatomic lesions of, 136
from coronary atherosclerosis, 782
of effort, electrocardiogram in, 143
iproniazid in, 137, 947
isoniazid in, 137
plasma catechol amines in, 657-661
- Angiocardiography**
in Ebstein's anomaly, 171
serial, of venae cavae orifices, 55-64
- Angiography**, in atherosclerosis, cerebral, 154
- Angioplastic procedures in coronary atherosclerosis**, 780
- Anticoagulants** (symposium), 71-132
alopecia from, 301
in cerebrovascular disease, occlusive, 156
in coronary disease, 129-134
dicumarol, discovery of, 97-106.
See also Dicumarol
experience with, 110-113
hemopericardium risk with, 300
hemorrhage from, 132, 300
heparin. *See* Heparin
long-term, in myocardial infarction, 777
marumar, 105, 301
in myocardial infarction, 136
prothrombin tests, 92-96, 300
serum enzymes after, 777
side effects of, 133
spinal epidural hematoma during therapy with, 735-739
thromboembolism recurrences off and on therapy, 300, 778
Warfarin, 104, 116, 470, 776
Wisconsin Medical School experiences with, 113-117
- Antidiuretic hormone**
and hyponatremia, 286, 288-293
in toxemia of pregnancy, 304

- Aorta**
 anastomotic site growth after surgery, 338-346
 aneurysm and medial necrosis with aortic stenosis, 793
 coarctation, 946
 obstruction of, respiratory inhibition from, 791
 suprasternal transaortic coronary arteriography, 47-54
 surgery of bifurcation, late results of, 310
 thoracic, aneurysms of, 309
Aortic arch syndrome, 499-509
Aortic sinus aneurysms
 congenital, 136
 ruptured, and bacterial endocarditis, 745-749
Aortic valve
 insufficiency
 and bacterial endocarditis, 758
 and ventricular septal defect, 945
 stenosis
 with aortic medial necrosis and aneurysm, 793
 carotid pulse in, 473
 congenital, 458-467
 differential diagnosis, 181
 isolated, prognosis in, 311
 percutaneous left ventricular puncture in, 741-744
 phonocardiogram in, 141
 pulmonic stenosis with, 458-461
Aortography
 lumbar, iliac artery changes in, 473
 technic of, 307
Arrhythmia
 from drugs injected into coronary arteries, 624
 hemodynamic aspects of, 148
 mephentermine affecting, 783
 in mitral valvotomy, 309
 NaEDTA in, 918-926
 R-R interval in, 949
 tranquilizers as antiarrhythmics, 788
 ventricular, from hypercarbia in cyclopropane anesthesia, 624
 in Wolff-Parkinson-White syndrome, 16-20
Arteries. *See also* Specific arteries
 changes in arteriovenous fistulas, 794
 norepinephrine in walls of, 146
 occlusive disease, and cerebral infarction, 156
Arteriography
 carotid, with thorotrast, 154
 coronary, suprasternal transaortic, 47-54
Arterioles, high pressure gradient in, 150
Arteriosclerosis. *See* Atherosclerosis
Arteriovenous fistula
 arterial changes in, 662-670
 of kidney, 662-670
Aschoff bodies in atrial biopsies, in mitral stenosis, 812
Atherosclerosis, 153, 469, 773, 942
 in aortic arch syndrome, 499-509
 cerebral, angiography in, 154
 coronary
 angina pectoris from, 782
 angioplastic procedures in, 780
 anticoagulants for, 129-134
 and coronary artery occlusions, 139
 in Delhi, 849-854
 in diabetes, 863-866
 and diet, in population sample, 469
 in executives, 304
 experimental, myocardial infarction with, 65-70
 fatty acids of lipids, in atherosclerotic plaques, 942
 goiter and, 776
 and heart disease, electrocardiography in, 141
 hyperlipemia in, 943
 intimal atherogenesis, acceleration through prior medial injury, 788
 in Israel, 776
 Italian group studies, 943
 obliterative, blood changes in, 228-231
 in Rhesus monkeys, 469
 serum measurements in, 265-267
 statistics of, 775
Atresia, tricuspid, differential diagnosis of, 179
Atria
 acetylcholine stimulating, 790
 fibrillation. *See* Fibrillation, atrial
 flutter, in digitalis toxicity, 188-193
 impulse formation, after sodium chloride injections, 149
 pressure pulse, left, in mitral valve disease, 257-263
 pressure tracings, direct, in mitral stenosis, 793
 quinidine affecting, 790
 refractory period, vagal effects on, 792
 right, myxoma of, 155, 910-917
 septal defect
 differential lung function in, 856-862
 familial occurrence of, 135
 pulmonary artery anomaly with, 135
 surgical mortality rate in, 195-200
 tachycardia, effects of, 625
 volume in rheumatic heart disease, 269-274
Atrioventricular
 block, partial, diagnosis of, 950
 excitation, anomalous, 14-26
Atropine cardioacceleration, effects on coronary circulation, 781
Auscultation, fit of stethoscope earpieces, 606-608
Bacteremia, staphylococcal, 440-451
Ballistocardiogram
 in anemia, 41-46
 reading of, 783
 ultra-low frequency, 903-908
Bantu, electrocardiogram of, 251-256
Baroreceptor reflexes in monkeys, 626
Benactyzine, antiarrhythmic action of, 788
Beriberi heart disease, 275-283
Biopsy, renal
 percutaneous, 609-620
 in pheochromocytoma, 952
Bishydroxycoumarin. *See* Dicumarol
Blood. *See also* Plasma and Serum
 anemia. *See* Anemia
 bacteremia, staphylococcal, 440-451
 carbon dioxide in, hypercarbia producing arrhythmia in cyclopropane anesthesia, 624
 chemical changes in cardiac dyspnea, 149
 coagulation. *See* Coagulation
 ear oximeter in diagnosis of congenital heart disease, 471
 flow
 carbon dioxide alveolar tension affecting, 624
 coronary
 related to cardiac effort and myocardial oxygen consumption, 790
 tachycardia affecting, 625
 in extracorporeal circulation, 646
 hepatic, epinephrine affecting, 306
 Hageman trait, 944
 hemodynamics of kidneys, serotonin affecting, 793
 hyperpotassemia and acidosis, sodium bicarbonate infusion in, 215-219
 hypovolemia, hemodynamic effects of, 150
 hyponatremia, 284-299
 acidosis in, 293-296
 and antidiuretic hormone, 286, 288-293
 kidneys in, 285
 in pulmonary disease, 296-298
 lipids removed from, 774. *See also* Lipids
 mesenteric hemodynamics in hemorrhagic shock, 791
 in obliterative atherosclerosis, 228-231
Blood pressure
 arterial, tachycardia affecting, 625
 auscultatory and intraarterial measurements, 303

- carbon dioxide alveolar tension affecting, 624
- in carcinoid syndrome, malignant, 769
- central vein, respiration affecting, 625
- in digital circulation, in pregnancy, 786
- in extracorporeal circulation, 646
- hemorrhage affecting responses to epinephrine and histamine, 791
- hypertension, 475, 622, 785
- cardiac contraction in, 952
- and cerebrovascular disease, 951
- chlorothiazide in, 355-359, 360-365, 936-938
- depressive reactions in, 366-375
- deserpidine in, 954
- from desoxycorticosterone, resistance to, in renal hypertrophy, 475
- in diabetes, 303
- in executives, 304
- experimental, from licorice and glycyrrhizin, 623
- gradient in arterioles, 150
- natriuresis in, 304
- norepinephrine in, and digital vasoconstriction, 786
- Pempidine in, 785
- pentaerythrum methylsulfate in, 475
- peripheral resistance in, after abolition of sympathetic tone, 564-568
- postnephritic, 303
- in pregnancy
- and digital circulation, 786
- tests for, 303
- pulmonary
- blood vessel tone in, 641-644
- extrapulmonary stenosis in, 891-896
- patent ductus closure with, 821-825
- refractory, 953
- renal
- chlorothiazide affecting, 355-359
- drugs affecting function in, 691-696
- postnephritic, 303
- propylthiouracil in, 622
- renin content of kidneys in, 953
- serum cholesterol levels during therapy, 304
- sodium intake affecting, 952
- therapeutic agents in, 622
- urinary aldosterone in, 305
- vascular hyperresponsiveness in, 302
- water and salt excretion in, after intravenous salt load, 729-733
- hypotension
- exertional, in cardiac patients, 543-551
- hemorrhagic, norepinephrine affecting myocardial oxygen tension in, 623
- hypotensive agents, 622
- camphidonium, 622
- chlorisondamine, 147, 304
- chlorothiazide, 936-938
- affecting ganglioplegic drugs, 360-365
- affecting renal function, 355-359
- chlorothiazide-reserpine, 952
- deserpidine, 954
- diuretics as, 827-838
- Pempidine, 785
- pentaerythrum methylsulfate, 475
- rescinamine, 952
- reserpine, 952. *See also* Reserpine
- in India, 395-404
- ischemia of pregnant uterus affecting, 785
- and obesity, 511-515
- Blood vessels.** *See also* Arteries; Veins
- arteriolar high pressure gradient, 148
- capillary functional beds in cardiac arrest, 625
- catechol amines in walls, 148
- connective tissue changes in disease, 801-802
- cooling affecting, 583-588
- diabetic lesions, serum proteins in, 863-866
- diseases, 794
- in exercise, 579-581
- in hypertension, 302
- pulmonary, 641-644
- poststenotic dilatation in great vessels, 155
- segment resistances, agents affecting, 792
- in staphylococemia, 450
- vasoactive drugs, and fibrinolytic activity, 845-847
- Bone(s)**
- formation in lungs, with mitral stenosis, 323-330
- in staphylococemia, 450
- Book reviews**
- Electrocardiography (Bernreiter), 795
- Heart Disease and Pregnancy (Burwell & Metcalfe), 795
- Books received, 627**
- Brain extract, hypercholesteremia from, 942**
- Bronchiectasis, pulmonary artery anomaly with, 135**
- Bronchspirometry, in atrial septal defect, 856-862**
- Bundle-branch block. See** Heart block
- Calcification**
- of mitral region, 308
- myocardial, steroid and pituitary hormones affecting, 306
- Calcium**
- chelating agent in cardiac arrhythmias, 918-926
- gluconate, fibrinolytic activity of, 846
- salt, intracoronary injections, effects of, 624
- Camphidonium, hypotensive effects of, 622**
- Capillaries, functional beds in cardiac arrest from potassium chloride, 625**
- Carbohydrate metabolism of myocardium, 787**
- Carbon dioxide**
- alveolar tension, effects on blood flow, 624
- hypercarbia producing arrhythmia in cyclopropane anesthesia, 624
- tension in extracorporeal circulation, 649
- Carbonic anhydrase inhibitors. See** Diuretics
- Carcinoid syndrome, malignant, 766-772**
- Cardiac conditions. See** Heart
- Cardiovascular disease**
- in Finland, 776
- research in Russia, 481-485
- reviews in, 313, 626
- in staphylococemia, 447
- Carotid arteriography, with thorotrast, 154**
- Carotid artery, internal thrombosis of, 155**
- Carotid pulse, in aortic valvular stenosis, 473**
- Catechol amines in vascular wall, 148**
- Catheterization of heart**
- in Ebstein's anomaly, 176
- in hyperthyroidism, 306
- in mitral valve disease, 517-529
- in patent ductus closure with pulmonary hypertension, 821-825
- producing heart sounds, 557-563
- Cells**
- heparin in mast cells of Ehrlich, 88
- intracellular electrodes, and surface activation of ventricles, 950
- transcellular potential gradients, 1
- Central vein pressure, respiration affecting, 625**
- Cerebrovascular disease**
- atherosclerosis, angiography in, 154
- cardiac disease with, 779
- hypertensive, 951
- infarction
- and occlusive arterial disease, 156
- postoperative, 138
- occlusive, anticoagulant therapy in, 156
- spinal epidural hematoma in anticoagulant therapy for, 735-739
- Chamberlain, Francis L., 157**

- Chemoreceptor reflexes in monkeys,** 626
- Chest**
deformities, cardio-respiratory effects of, 312
pain, anatomy of, 138
- Chlorisondamine**
blood pressure response to, 147
serum cholesterol levels after, 304
